PASTEUR4OA/Welcome
Welcome to the PASTEUR4OA website!
PASTEUR4OA (Open Access Policy Alignment Strategies for European Union Research) aims to support the European Commission's Recommendation to Member States of July 2012 that they develop and implement policies to ensure Open Access to all outputs from publicly-funded research.
PASTEUR4OA will help develop and/or reinforce open access strategies and policies at the national level and facilitate their coordination among all Member States. It will build a network of centres of expertise in Member States that will develop a coordinated and collaborative programme of activities in support of policymaking at the national level under the direction of project partners.

PASTEUR4OA Consortium

Project Partners

1. National Documentation Centre (EKT)-GR
2. Enabing Open Scholarship (EOS)-NL
3. Universidade do Minho (Uminho)-PT
4. University of Oslo (CRISTin) –NO
5. EIFL-NL
6. EuroCris-NL
7. Hungarian Academy of Sciences-HU
8. Politecnino di Torino (POLITO)-IT
9. LIBER-NL
10. Sparc Europe- NL
11. Jisc-UK
12. Hacettepe University-TR
13. Open Knowledge Foundation (OKF)-UK
14. Fonds National de la Recherche Scientique (FNRS)-BE
15. Research Council of Lithuania-LT

Project aims:

1. To expedite progress in understanding and awareness-raising regarding open access (OA) policy
2. To stimulate OA policy developments aligned to EC policies and Horizon 2020, by
   - Engaging policymakers
   - Evidence-based policy advocacy materials based on policy analysis and good practice case studies
3. To deliver a coordinated network of expert organizations across Europe to work together (Knowledge Net)

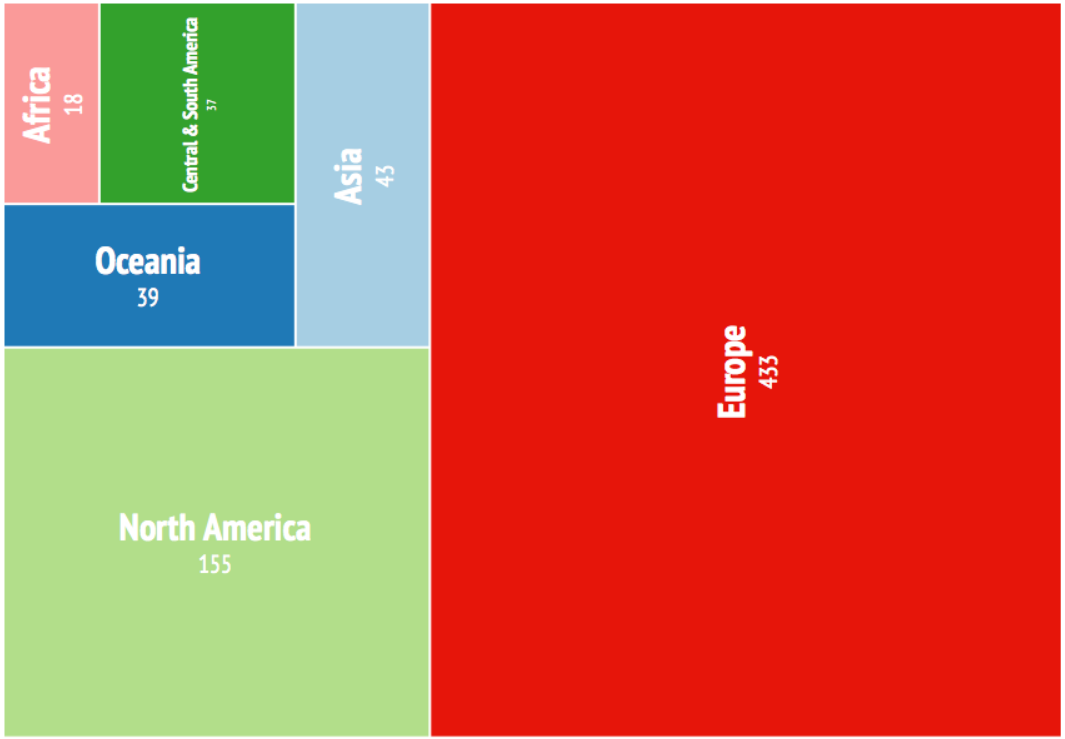
Some achievements

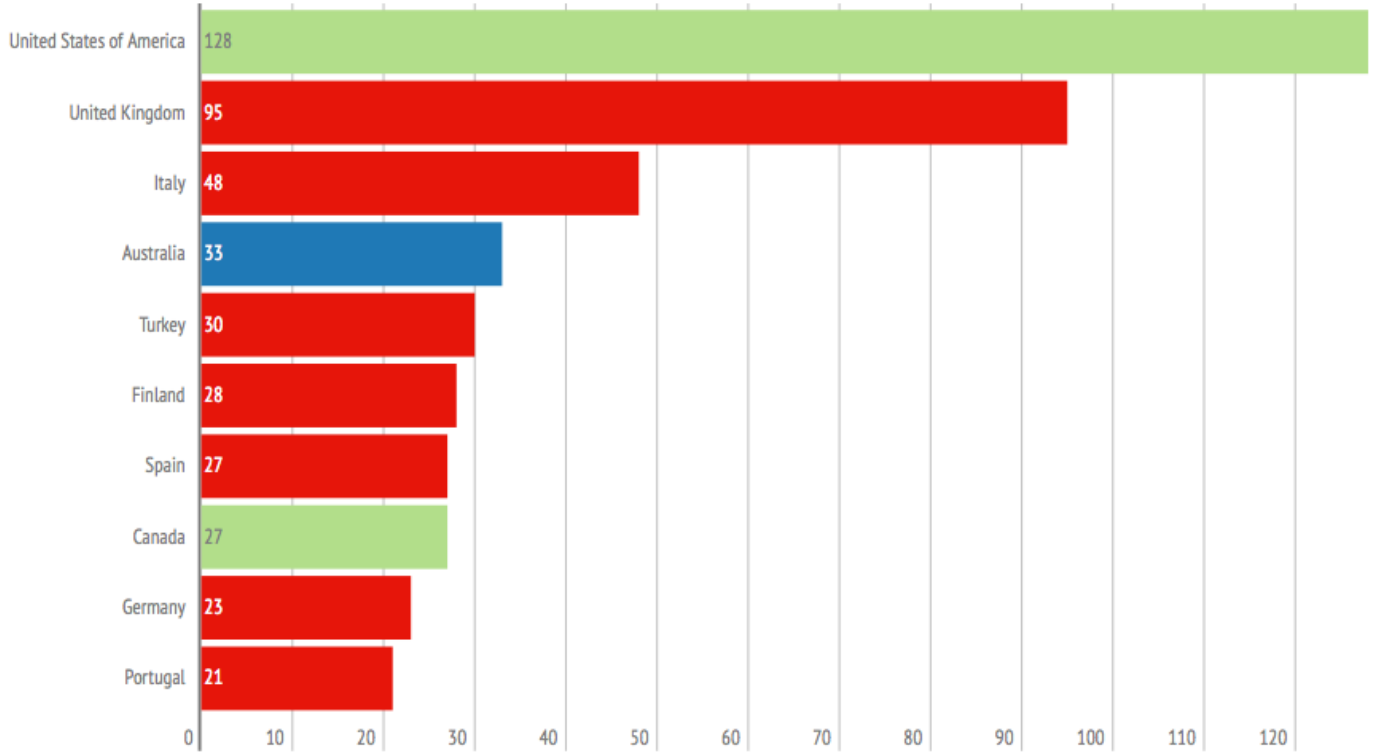
- Revamping of ROARMAP
  - Study on policy effectiveness - *important elements that make policies effective and relevant policy guidelines and templates*
  - Visualizations- *to be used for advocacy and other work, drawn from ROARMAP*
- Extensive advocacy materials and evidence-based research
- Extensive policymaker engagement and contributions all over Europe

Visualizations of policies



- 288 new entries in ROARMAP
- Over 50% of policies are mandatory
- Over 60% of these policies are European

Countries and policies



Open Access Policy Alignment Strategies
for European Union Research

PASTEUR4OA

PASTEUR4OA Central and Eastern European Regional Meeting of Research Funders and Research Performing organizations

“Working Together to Promote OA Policy Alignment in Europe”

OA policy alignment is key to:

Enable researchers working in interdisciplinary areas or in international teams to comply with a single OA policy rather than with multiple and often divergent policies.

Facilitate interdisciplinary research and harmonisation of practices among different academic disciplines.

Enable researchers mobility across the European Research Area.

OA policy alignment is key to: (2)

PASTEUR4OA

Support the EU harmonisation agenda and promote common practices and norms.

Implement generic infrastructural services.

Accelerate scientific research, technological progress and social well-being.

What we would like to achieve

PASTEUR4OA

- Develop **policies** on Open Access;
- Ensure **consistency** between Horizon 2020 Open Access policy and those of EU Member States;
- Promote **coordination** at national/regional/EU level;
- **Report** on progress at Member States and EU level;
- Establish multi-stakeholder **dialogue** at national/regional/EU level**.**

OPEN ACCESS
Science. Set free.
Find out what OpenAIRE is about ....
New Portal. New Features. New Look.
The OpenAIRE team has been busy over the past few months.
We brought our database up to speed with EC's H2020 data so you can use OpenAIRE to report your research outcomes to EC's participant portal.
We now have 12.3 mi OA publications, an increase of almost 1 mi from June. With intensified text mining efforts we were able to identify many more links to projects and datasets: for FP7 more than 200K publications and 3K related data
