Bootcamp

Interoperable research
Persistently IDentified

https://thorbootcampbudapest.eventbrite.com

Sep 28, 2017–Sep 29, 2017

Library and Information Centre
Hungarian Academy of Sciences
Arany János street 1.
1051
Budapest

The Bootcamp is designed to bring a mixed audience together, provide an open forum where librarians, research funders and publishers, service providers and developers can discuss the role of Persistent Identifiers (PIDs) in scholarly communication, consolidate PID use cases, and explore integration and application possibilities. The event aims to transfer knowledge, boost adoption and support PID related strategic planning and technical integration with practical guidance.
Join us to learn about PIDs and work with PIDs hands on in this two days event.

Learn about PIDs   Work with PIDs
